

**1ST INTERNATIONAL CONGRESS OF THE
MEDITERRANEAN UNION OF SURVEYORS
17 - 18 APRIL 2015**

ON THE THEME:

**MEDITERRANEAN COASTLINE: VECTOR OF
DIALOGUE AND OF SUSTAINABLE DEVELOPMENT**

INSTRUCTIONS TO THE AUTHORS

Submission of the proposals

The call for proposal of communication for the 1st UMG congress invites the authors to submit articles in one of the themes suggested. The proposals can be made in one of the three languages: Arabic, French or English.

Submission of the abstracts

The authors are invited to submit in a first time an abstract of their communications of roughly 500 words. The abstract must contain the title of the communication, the name(s) of the authors with their affiliation, as well as the body of the abstract describing, in 500 words around, the content, the meaning and the guidance of the communication related to one of the sub topics of the congress.

The authors are also invited to accompany their abstracts with a short biographical note presenting succinctly the professional path of the author(s).

The abstracts shall be sent to the secretariat of the congress before 19 December 2014.

Types of communications

After evaluation of the abstracts submitted, the review committee will notify to the authors the acceptance of their communications and the categories to which they will be assigned. Due to the constraints of scheduling, the communications will take three shapes: oral presentation, presentation through a poster or a communication to be published in the proceedings of the congress which will gather all the communications which have been accepted

Format and presentation of the communication

The authors whose abstracts have been accepted will be invited to send their full paper before 2 March 2015. The communications shall be sent to the reviewing committee under the Microsoft Word template using Times New Roman, 12 points. The recommended spacing is one and a half underline with 2.5 cm margin (left right, above and under).

The communications shall not be of more than 15 pages.

The communications which will be accepted as posters shall respect the same guidelines for their insertion in the publication proceedings. However, their authors will be invited to extract the most pertinent information to make a poster under the format A1 or A0.

The authors of the articles must insert at the end of their articles a short biography.
